

International Research Experience for Students Biosensor Development

Aarhus University in Denmark and Michigan Technological University
Summer 2017

To the writer of the letter of recommendation: You are receiving these instructions because an applicant is requesting your recommendation for admission to the Aarhus University/Michigan Technological University International Research Experience for Students (IRES) to work on biosensor development for the summer of 2017.

In a stand-alone document, please comment and elaborate on:

- Your relationship to the applicant
- The applicant's academic performance and scholarly potential
- The applicant's ability to partake in 8-weeks of intense research-based work
- The applicant's maturity, self-motivation, and ability to work in a group and independently
- The applicant's ability to interpret and present findings in a presentation setting
- The applicant's ability to seek and receive help/input from others
- Any other pertinent information that would help the applicant be accepted into the IRES program

When the letter of recommendation is completed, please send a copy to iresdenmark@mtu.edu with the applicant's name in the subject line of the e-mail.
